planning, manufacture and assembly with HAGA employees

... it is our pleasure to work together!

Dear Ladies and Gentlemen,

As one of the leading German façade producing companies, we are specialized in design, manufacture and installation all kind of windows, doors and façades made of aluminum, steel and glass. It is our target to do nearly all required core disciplines with our own in-house educated, specially trained and high-experienced craftsmen. This is a main reason, why our products are characterized with an extremely long usability and durability. They meet at the same time high optical and design requirements of contemporary architecture.

These positive attributes, our team spirit and our focus on a consistent, high level of operational flexibility, reliability, performance and marketability are the foundations of a path that we are allowed to go successfully together with our customers, suppliers and employees for now nearly four decades.

HAGA Metallbau GmbH with its headquarters in Hofheim (North Bavaria) operates with its affiliated manufacturing workshops in Römhild (since July 1997) and Wackersdorf (since June 2006) and employs a staff of around 250. This includes 4 technical departments with a technical staff of around 15 (façade engineers, drawers, project managers, site managers, etc.), around 100 craftsmen in four semi-automated manufacturing plants, around 15 installation gangs with around 110 installers. Furthermore we are proud of teaching permanently around 30 young people, who learn various technical and commercial jobs at HAGA.

Our team annually processes more than 1,000 tons of aluminum from our main system partners SCHUECO and WICONA, do assemble around 300,000 square meters of glass of our partners Flachglas Wernberg, Semcoglas and Fränkische Thermoglas. Our steel processing capacity is around 4,000 tons. Beneath focusing our work on façade projects, we are experienced to handle other trades and products such as sunscreen, steel engineering or sheet metal facades. Our expertise and organization allows us to handle smaller, but also large-scale projects. And our goal is to create with our partners technical solutions in an economically, ecologically and certain manner.

HAGA is registered under Bamberg HRB-Nr. 706, and registered in the Handicrafts. We are 284/0143/40 in the BG wood and metal (Mainz) registered. The operational risks are insured by the Gothaer Allgemeine Versicherung AG as follows:

Coverage levels for persons-, property- and product financial losses	€ 10.000.000,00
Coverage level for pecuniary loss	€ 500.000,00

A majority of our employees are health insured with the AOK Schweinfurt. The Commissioner for us tax office is located in Zeil am Main. Our obligations hereunder, we always meet. Appropriate acknowledgments we are happy to be at your disposal.

HAGA Metallbau GmbH is officially stated to be a “prequalified company”. This means that the tested company and its leaders are certified by an external auditor, to work permanently regular without any misbehaviors in tax, laws, accounts, contracts, etc.

Despite challenging market situations and the ongoing consolidation since 15 years in the construction industry, we were able to stand our ground. We have in recent fiscal years following revenues (in € million) generated:

2015	€ 39,4
2016	€ 52,6
2017	€ 44,7
2018	€ 32,0
2019	€ 33,8
2020	€ 42,1
2021	€ 35,1

Our markets are mainly in German-speaking countries. A share of around 20% is redeemed in UK and other Western European countries.

The location of our headquarters in Hofheim, the “pearl of the Hassgau” is also responsible for finding our name. “HAGA” has been derived from the initials of the original cell “Hassgau Aluminum”.

For more information about our company, some operational activities, as well as a choice of selected HAGA projects we have put together on our website www.haga-metallbau.de for you.

If you have any further questions or requests, please do not hesitate to say so. Our motivated team is at your disposal.
